

# We Need You!!!

Do you have room in your home and your heart for some animals that need you? Do you love animals, but are unsure if you want to make the life commitment that comes with pet ownership? Well then we have the answer for you!

N.A.S.A.P, the Northern Alberta Society for Animal Protection,  
is in desperate need of foster homes!

NASAP is a five year old, completely volunteer-run organization that takes rescued, abandoned and surrendered animals into care and places them in foster homes until permanent adoptive homes can be found. NASAP provides you with all of the necessities – food, litter, medical supplies – all you have to do is supply the love and patience!

Call or email today for more information, and start yourself on this rewarding journey!
